LEASING

**Our Guide
to the Advantages of Leasing.**

VOLKSWAGEN
FINANCIAL SERVICES
THE KEY TO MOBILITY

A glowing lightbulb is the central focus, set against a dark chalkboard background. A white chalk-drawn smiley face is visible behind the lightbulb. The lightbulb is lit, with a bright glow emanating from its filament. The overall composition suggests an idea or a solution.

Volkswagen Leasing can empower your business.

What are the benefits of Volkswagen Leasing?

- Full Vehicle Maintenance
- Driver and Fleet Manager Support
- Like for Like Courtesy Vehicle*
- Road Tax and NCT
- Premium Showroom Experience
- Replacement Premium Quality Tyres

*Volkswagen Financial Services will endeavor to provide like for like vehicles or in exceptional circumstances, one size down.

Depreciation is a thing of the past and you can free up cash flow.

One major advantage is that we manage the challenge of depreciation. Also, the money that would have been invested in buying a new vehicle can now be invested in your business.

Focus on the business challenges that matter.

For small and medium sized companies, running and maintaining vehicles is a significant cost. With Leasing you can include service, maintenance and repair in the contract.

If a driver has an issue they will call us, not you. We'll manage rescue, repair, garage liaison and courtesy car. You can focus on your business.

Your team will feel valued and safe.

You're in a position to keep employees motivated and attract the best recruits with a modern fleet.

These vehicles act as:

- A motivating factor
- High reward for hard work
- An outward signal of your company values

Vehicle upgrades ensure that your drivers make the right impression every time.

Embrace a sustainable business solution.

A modern fleet enables your business to reduce its carbon footprint while ensuring further long term benefits.

The ability to renew your fleet regularly means you always have the latest and safest technology along with the most efficient vehicles.
