

VOLKSWAGEN FINANCIAL SERVICES

THE KEY TO MOBILITY

Vacancy: QA Manager

Background

Volkswagen Financial Services AG is the largest automobile financial services provider in Europe. Our central task is to promote sales for the Volkswagen Group and its brands. The products and services of Volkswagen Bank GmbH and Volkswagen Financial Services range from the financing of new and used vehicles of all the Group's brands to dealer financing. A vacancy has now arisen for a QA Manager within the IT Department of Volkswagen Financial Services Ireland.

The QA Manager directs and manages the test-life cycle, setting standards for assignments and applications. Responsible for the delivery of the defined work packages and providing effective management to internal/external teams and giving guidance to key business users. Provide management for the team in planning, designing, and developing frameworks and procedures relating to quality, whilst meeting on-time and on-budget project goals.

Key Skills & Responsibilities

- Develops strategic roadmap for the Test Management function and directs providers/team with diverse scope (*Internal/External*)
- Implement Governance framework & standardisation of policies and processes
- Provide leadership and management for the onshore/offshore test team (*Manual/Automation*)
- Implement an automation programme/roadmap for VWFS
- Design, commission and deliver automation projects
- Test planning of current & future portfolio of projects & BAU activities to include resource planning across IT & business
- Ensures that project/BAU deliverables are completed within agreed cost, timescale, resource capacity, budgets and are predictable
- Use project planning tools and participate in the identification of and planning for future resource needs across SIT & UAT
- Develop a fit-for-purpose reporting mechanism; analysing and reporting on overall test status and results, identifying issues and reporting to relevant stakeholders & managing risks
- Leads the test execution and creation of scripts as per test plans, co-ordinating schedules, work and resource plans; leading the progress of all activities against the overall plans
- Maintain strong working relationship with VWFS departments & IT to ensure collaboration in delivering effective results.
- Maintain a high standard of knowledge of business process, Small Change & Project Management system architecture knowledge to support the business.
